

Welcome to your guest mooring!

Find, book, pay, relax!
Worldwide.

7x24h
cash-free and
contactless

More capacity for everyone!

Reserve a guest berth with the free app and sail into the berth relaxed in the evening: that's how water sports works today!

Release your own berth with a "swipe" and benefit from the return guarantee and a time advantage for reservations in other marinas.

Available at sea and on inland waterways, in more and more marinas...

More than 2,500 marinas contactable directly via the map.

Check it out!

www.boatpark.app

Boatpark

How it works:

Register once in the app and enter the information about your boat. Reserve a suitable berth via the map view and pay by card, PayPal, Apple Pay, Samsung Pay, etc.

Register your berth in the app under "Share my mooring". If you are on cruise yourself, simply release your berth using the slider in the app: this informs your marina and the berth becomes available in the app. If your plan changes, you can cancel the release at any time and your berth will be free for you on the following day at the latest.

Guests can see available berths even without the app and can book them directly themselves or via the marina office. Boatpark can also be used as a digital "payment terminal".

We set up your marina within 24 hours only based on a marina plan and the price-list!
